

Built to Last. Designed to Inspire

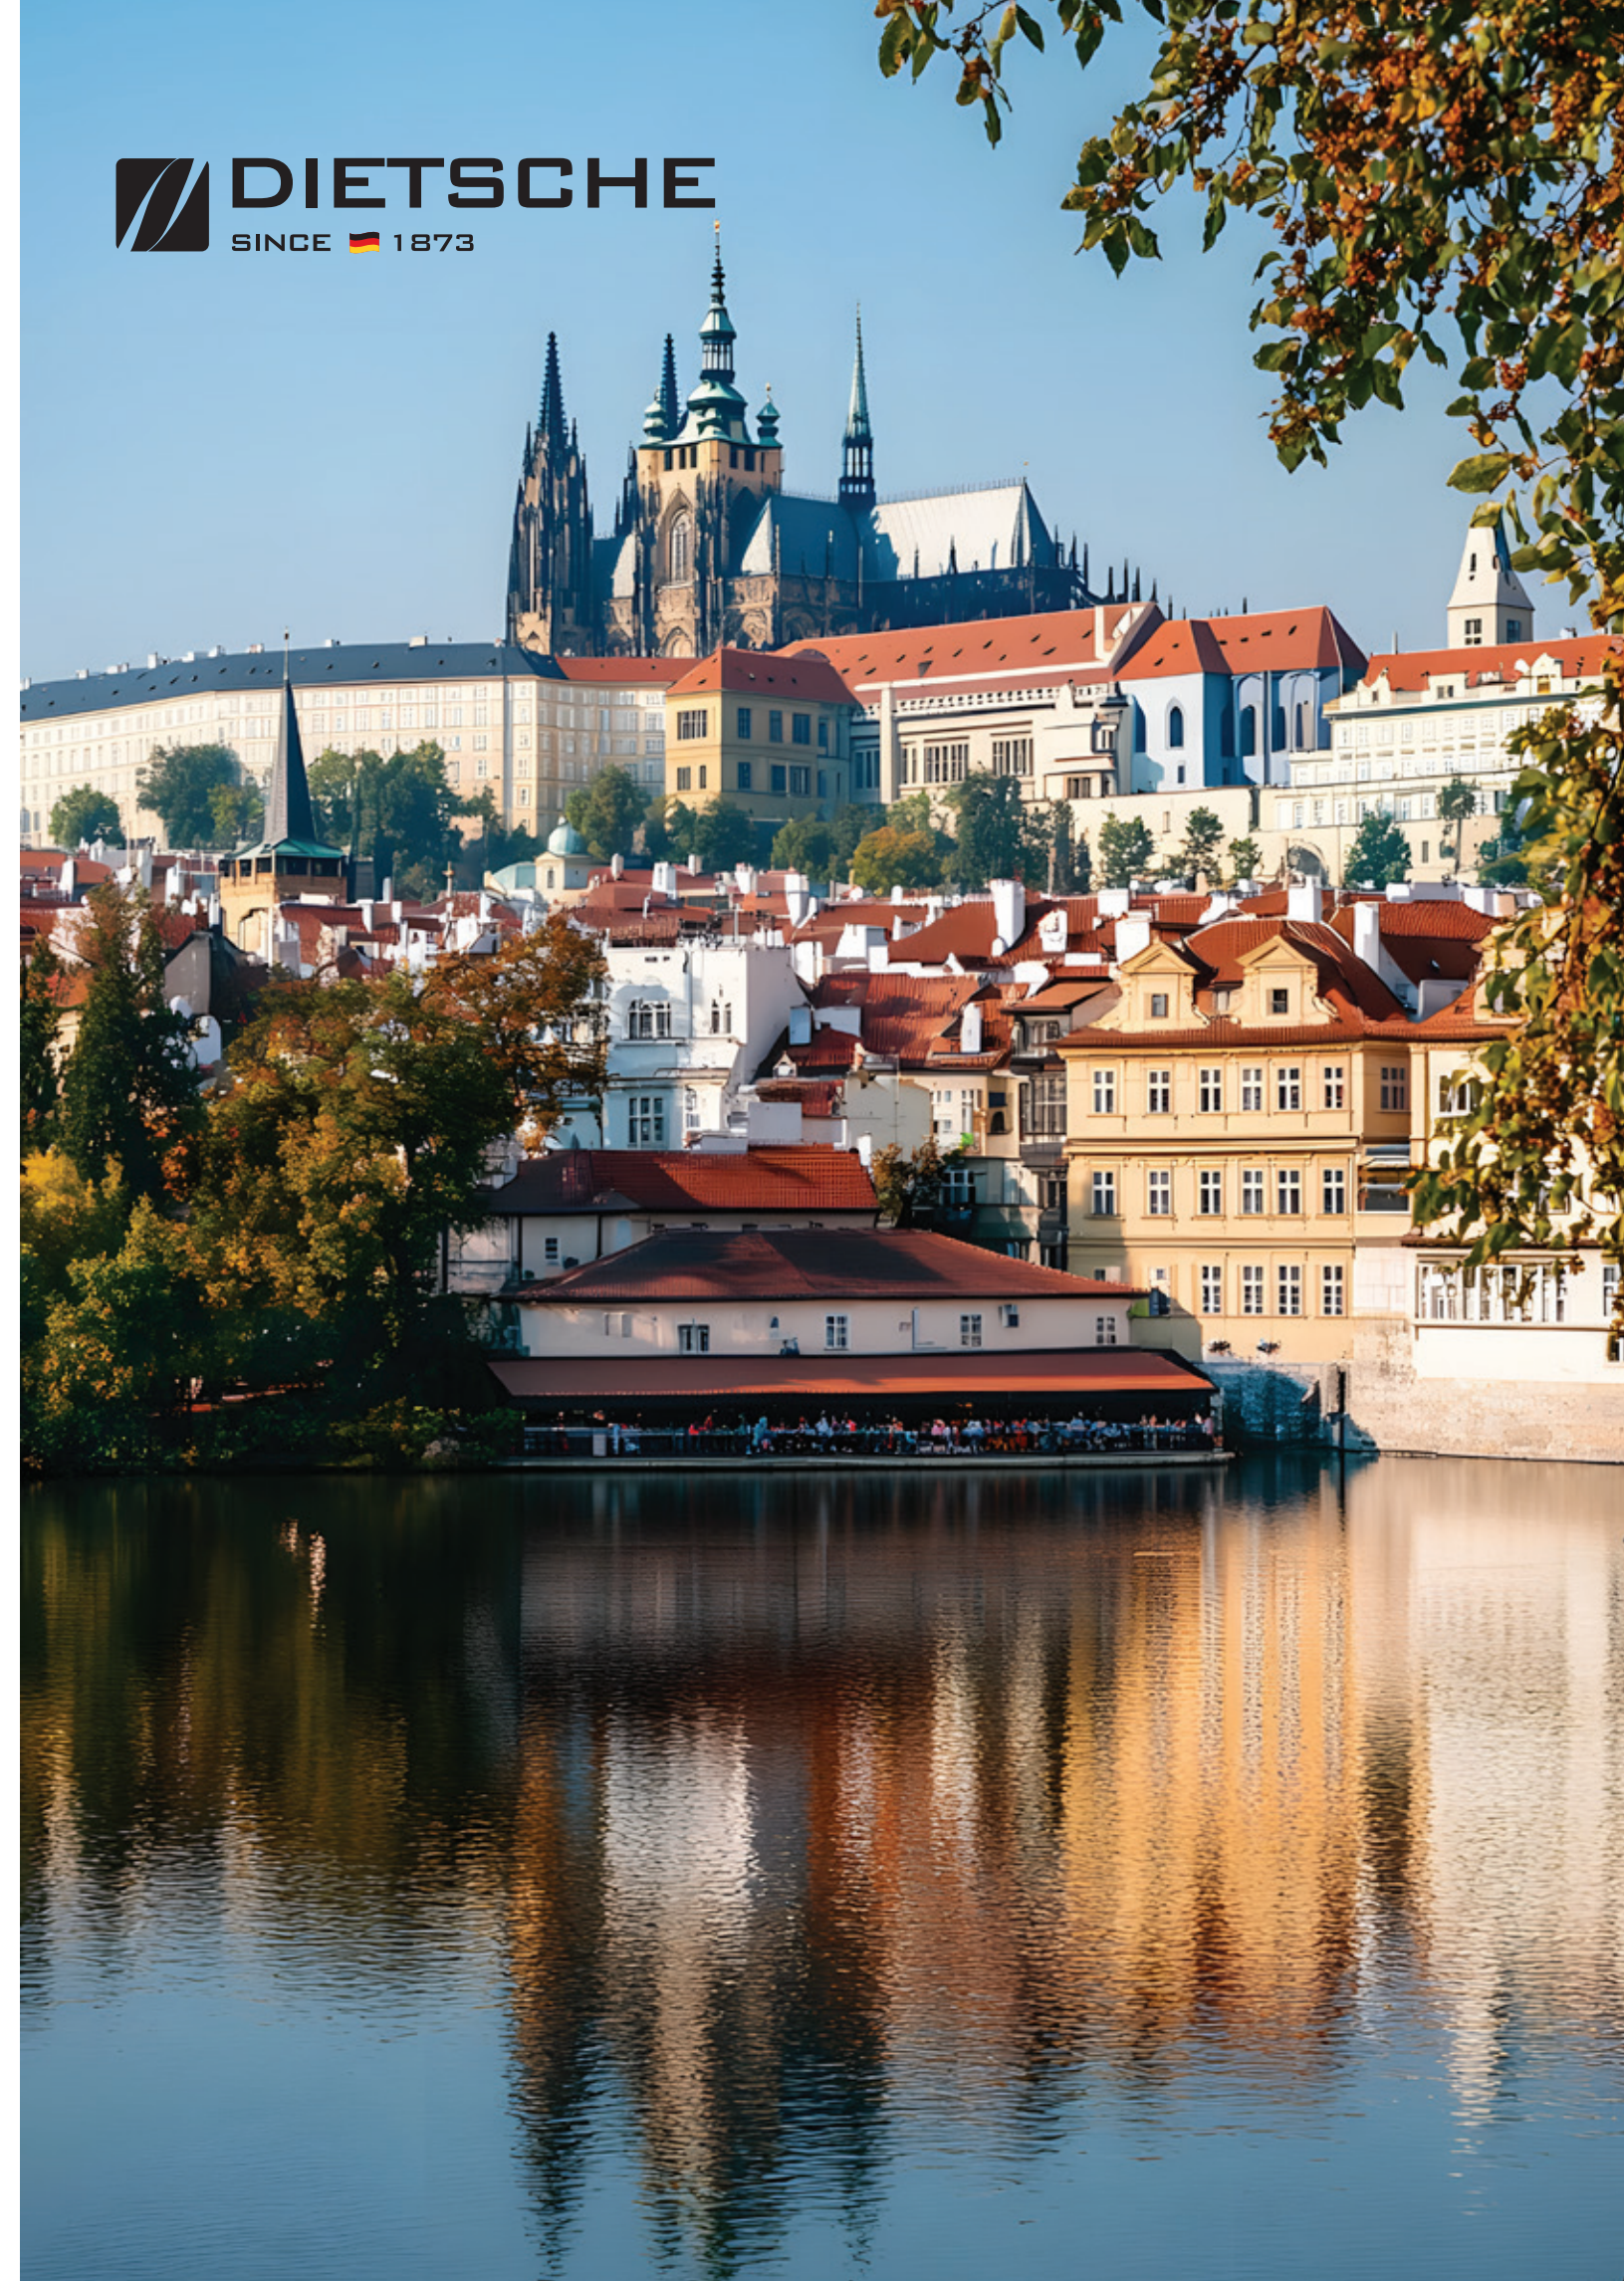

BRAND STORY DIETSCHKE

Since its inception in Germany, has embodied the harmony between form and function, where every curve tells a story and every finish echoes excellence. Born from a legacy of engineering mastery and design innovation, the brand has continually elevated the standards of sanitary living, crafting experiences, not just products, for those who seek the exceptional.

Our products are thoughtfully manufactured to meet the lifestyle and aspirations of a region where tradition embraces modernity, and luxury flows with purpose.

We believe that true beauty lives in the details. From sleek faucets to sculptural bathtubs, from minimalist flush plates to intelligent shower systems, every element is meticulously designed to transform spaces into sanctuaries.

At Dietsche, we don't follow trends, we shape them. Guided by a philosophy of timeless luxury and engineered perfection, we are setting new benchmarks for bathrooms that inspire, comfort, and endure.

OUR COMMITMENT

At Dietsche, excellence isn't a goal. It's our foundation. We commit to delivering unparalleled quality through four essential pillars:

Engineering Excellence :

From German precision, each product reflects state-of-the-art technology and manufacturing standards.

Sustainable Practices :

We believe in a future that respects the planet. Our water-saving systems, eco-materials, and clean manufacturing are built with sustainability in mind.

Timeless Design :

A blend of minimalism, modern elegance, and cultural sensitivity. Designed to fit the most luxurious of spaces or the most intimate of moments.

Innovation First :

Smart toilets, anti-bacterial coatings, thermostatic mixers, our R&D transforms tomorrow's ideas into today's experiences.

Faucets & Mixers

Engineered for precision and durability, our faucets and mixers combine advanced technology with high-quality materials to deliver reliable performance, water efficiency, and long-lasting comfort.

01.1. Bathroom Mixers

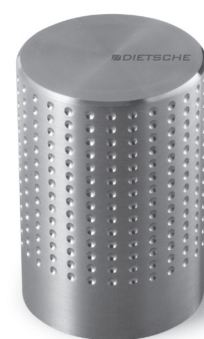

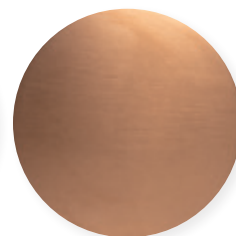

EDGE

COLLECTION

In the Dietsche universe, faucets are more than functional elements, they're the first touch of the morning, the final ritual of the evening, a refined detail that shapes the entire space.

Each piece blends German precision, timeless design, and long-lasting finishes crafted to endure. With clean lines, reliable technology, and carefully selected materials, our faucet collection embodies the perfect balance between modern elegance and outstanding performance.

A collection made to inspire, to elevate, and to give every bathroom its own signature of pure sophistication experiences.

RameCPCP
CognacGPGP
Orobianco**MATERIAL & FINISHES**

All products in the following collections are made of AISI 316L stainless steel, offering excellent resistance to corrosion, high durability, and optimal hygienic properties. The design is based on essential forms and functional purity, expressing a clean and minimal aesthetic.

Available PVD Finishes

The collections are available in the following PVD finishes:

AS Brushed Stainless Steel, AP Anthracite, BP Bronze, KP Carbon, RP Copper, CP Cognac, GP Oro Bianco.

All finishes are produced using PVD technology, ensuring superior resistance to wear and scratches, long-lasting colour stability, and consistent surface quality over time.

FLEXIBLE CONFIGURATION

Products in the following collections are supplied without flexible hoses, allowing the flexible colour to be freely chosen, independently from the faucet finish. This enables customised combinations, such as a chrome mixer paired with a black or contrasting flexible.

DESIGN

The Gaia and Edge collections share the same design concept and overall proportions, creating a coherent and recognizable identity across both ranges.

The distinction lies in the handle design.

Gaia is characterized by round handles, available in multiple surface variations such as smooth, linear textures, knurled patterns, and dotted finishes, offering a refined tactile and visual experience.

Edge features slightly squared handles, providing a more architectural and contemporary interpretation of the same design philosophy.

This dual approach allows for stylistic flexibility while maintaining consistency in materials, finishes, and functional performance.

SHARP

COLLECTION

BRASS FINISHES

Brass products are available in a wide selection of standard and special finishes, designed to offer aesthetic flexibility while ensuring durability and surface quality. Standard brass finishes include:

CRCR – Chrome, NBNF – Brushed Nickel, OLOL – Polished Brass, 1010 – White, 3131 – Black. Special brass finishes include:

NXNX – Brushed Black Nickel, RSRS – Brushed Copper, OSOS – Brushed Brass, OAOR – Pink Gold, NNNI – Black Nickel.

All finishes are engineered to guarantee resistance to wear, corrosion, and daily use, while preserving colour consistency and a refined appearance over time.

FLEXIBLE HOSES

All products are supplied without hoses.

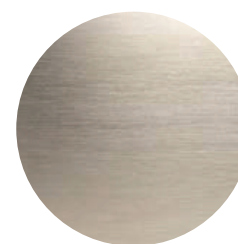

Flexible hoses with PVC coating are available separately and offered in the same colours as the brass finishes, ensuring visual continuity between the faucet and the flexible, while remaining a different material.

This solution allows full freedom of choice and customised colour combinations according to specific design or project requirements.

FLEX

COLLECTION

FLEX is a complete collection of faucets and shower systems with a simple, contemporary design. Made of cast brass and available in a chrome finish, it stands out for its attention to water and energy saving, combining aesthetics and durability.

The faucets in the collection, in fact, initially dispense only cold water when the lever is in the central position. To activate hot water, turn the lever fully to the left, allowing the boiler to be turned on only when really necessary.

This system contributes to real energy savings. Even the showerheads and showers, equipped with ECO AIR technology, guarantee an efficient and pleasant water flow thanks to the air mixture, reducing water consumption without compromising comfort.

DIETSCHÉ THE EXPRESSION OF DESIGN

Dietsche supplies bathroom and shower materials to manufacturers in the sector. Over the years and with accumulated experience, we have developed a series of products with a refined design and very competitive prices on the market. Our products are medium-high range, always using the best raw materials available on the market, such as top-quality brass or steel S304 and S316, which allow us to be present in both national and international markets. At Dietsche, we always strive to be at the forefront of design, which is why we are constantly committed to R+D+I. Our values are the excellent balance between quality, design, and price.

02. Sanitary Ceramics

Contemporary ceramic solutions
designed for residential and
commercial bathrooms.

COLORS

Soft tones effortlessly complement any color palette. Free from “arrogance or dominance,” they introduce a sense of gentle harmony, defined by the subtlety and grace of modern pastel hues. These shades offer a refined alternative to traditional glossy white.

The Set & Bidet collection by Dietsche embodies the perfect harmony between timeless design and flawless functionality. Crafted to elevate the elegance of the toilet space, these sets offer an unparalleled comfort experience while making a refined style statement. Each piece, meticulously shaped with precision and attention to detail, reflects our commitment to German quality and sanitary excellence.

All the ceramic colors.

DIETSCHE offers a color selection usefull with modern, contemporary or classic bathrooms.

To choose a color to decorate your home there are not a general rule. The first aim is to follow your taste. DIETSCHE propose colors (Beige, Verde, Celeste, Rosa, Grigio, Sabbia, Caffè, Grafite, Magnesio and Ghiaccio) and the classic Bianco Lucido and Panna that DIETSCHE proposes for all the ceramic products in the catalogue.

The Pastel Harmony Range

Dietsche introduces a bold shift in the bathroom universe, a true reimagining of form and function. Each piece crafted in Livin-Stone features a solid, homogeneous, non-porous surface with an exceptionally smooth touch. The sanitaryware collection includes wall-hung toilets and bidets, washbasins, and bathtubs, all designed with refined simplicity. Available in four distinctive shades: Cotton, Camelia, Avio, and Aloe.

Set & bidet

The Set & Bidet collection by Dietsche the harmony between timeless design and flawless functionality these sets offer an unparalleled comfort experience while making a refined style statement. Each piece, meticulously shaped with precision and attention to detail, reflects our commitment to German quality and sanitary excellence.

What emerges from the DIETSCHÉ product is the unmistakable artisan touch that sets each piece apart and elevates it with prestige and individuality. Every product reflects meticulous attention to detail, the result of in-depth research into materials, finishes, and manufacturing techniques. This careful process ensures not only superior quality and durability, but also a refined aesthetic balance. The elegance of the final expression embodies a harmonious dialogue between craftsmanship, innovation, and design, transforming each concept into a distinctive and timeless product.reliability, and design integrity.

Faucets and Accessories

DIETSCHE faucets and accessories are engineered in brushed stainless steel and precision brass, enhanced with advanced PVD finishes and exclusive colors. Developed through rigorous technical research and refined craftsmanship, each collection delivers long-term durability, corrosion resistance, and stable surface performance, combining functional reliability with timeless, sophisticated design.

Livin-Stone®

DIETSCHE Livin-Stone® (Solid Surface) bathtubs, including the COMO and VERONA models, are engineered as freestanding architectural elements with a non-porous, hygienic surface ensuring durability, easy maintenance, and long-term aesthetic stability for residential and hospitality use.

CAPRI solid surface is a high-performance composite of aluminum tri-hydrate and acrylic resin, offering excellent mechanical strength, thermoformability, seamless jointing, and color stability. Its chemically stable, low-emission composition ensures refined surface continuity, design flexibility, and suitability for high-end residential and contract environments.

Vertigo Flushing System (all the wall hung of sdr)

The DIETSCHKE Vertigo flushing system is an engineered vortex-based technology delivering uniform, powerful, and low-noise flushing with optimized water efficiency. A rimless bowl and optimized internal geometry ensure enhanced hygiene, reduced maintenance, controlled splashing, and consistent long-term performance, making it ideal for high-end residential, hospitality, and architectural applications.

CAPRI solid surface is a high-performance composite of aluminum tri-hydrate and acrylic resin, offering excellent mechanical strength, thermoformability, seamless jointing, and color stability. Its chemically stable, low-emission composition ensures refined surface continuity, design flexibility, and suitability for high-end residential and contract environments.
